Dear Mr. Hill:

RE: ML 45848-Gemstone; Section 2, T24S, R20E; Grand Co.

Thank you for your recent visit to our office to explain your activity under the above numbered lease. Although your activity involves no excavations the equipment which you are operating upon the site may cause a disturbance of the surface.

The division is obligated to ensure the protection of any cultural resources upon these lands and will consult with the State Historic Preservation Officer (SHPO). Please immediately advise me of any new work areas which are contemplated so that I may include all existing and proposed surface disturbances in our consultation with SHPO. Please do not conduct any excavations or surface grading of any kind upon these lands until you receive further notice from the division. An cultural resources survey may be required.

Thank you for your cooperation in this matter. I will keep you advised.

Sincerely,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST
